

Lend-Lease To Russia Is Now State Concern

Raise Question In Committee Meeting Now That War In Europe Has Ended

By WILLIAM S. NEAL
(N. S. Staff Correspondent)

WASHINGTON, May 9.—The status of lend-lease commitments to Russia—reported to include 25 per cent of American machine tool production—is being questioned today in Senate committees studying reconversion plans.

The issue was raised, especially in the Mead War Investigating committee as to whether terms of the lend-lease act are being violated in the recently made agreement with Russia.

War Over For Russia

Lend-lease, it was pointed out by some members, was enacted to aid countries whose defense is essential to that of the United States. With the end of the European war, it is added, Russia is not now fighting an enemy of the United States.

When the lend-lease act recently was renewed, pledges were made by administration officials that it would not be used for reconstruction and rehabilitation.

War Production Board Chairman J. A. Krug was reported to have told the Mead committee that the new lend-lease agreement with Russia calls for delivery of 25 per cent of American machine tool production.

Krug was reported to have defended the commitment on the ground that it will provide employment in the United States during the cutback period.

Do You Know HOW TO SHAVE?

MANY MEN shave all their lives, yet never learn how! They simply smear a little lather or brushless cream on their face, grab a razor, and shave. Result: scratch, scrape, pull—an irritated skin—an unsatisfactory shave—and much unflattering comment about blade, razor, soap or whatever!

TO SHAVE PROPERLY, the first requirement is adequate preparation. Wash your face thoroughly with hot water and ordinary soap to remove the dirt, oil and perspiration that ordinarily coats the face, and to soften the hair. Use good hot water—the time required for proper softening decreases rapidly, the hotter your water is. Then rinse the face thoroughly.

Now apply a good shaving soap (rubbing the lather in well with fingertips) or, if you prefer, a brushless cream. These preparations further emulsify the natural oil of the skin and permit the hairs to be wet more thoroughly. Allow from two to three minutes, or even longer for these simple tasks, and your shave will be quicker, easier, and more satisfactory.

So men, prepare your face properly, use plenty of time and water, get yourself some of those hollow ground blades and—learn to make shaving a pleasanter, easier task.

GERMANY PROSTRATE AS WAR IS ENDED

good of her armies had been destroyed in France. The British navy alone stood between Nazism and the rest of the civilized world. Now the utter defeat of Germany is so stupendous that it is almost impossible to look back and realize that no civilized nation of the west had fighting machines that were even comparable to the Nazis in 1940. And as late as 1944, the German army was still a great fighting machine.

Record Rout

Today, we have learned that the allies have captured more German prisoners than there were allied soldiers fighting against them. Never before in the history of the world has a fighting machine and a nation been so completely destroyed. It is difficult to grasp this stupendous fact that all German and Nazi soldiers are now prisoners of war—that what is left of her vast air armada, her panzer divisions and her navy—all her war materiel—now unconditionally belong to the fighting forces of the United Nations.

LATIN AMERICA WINS VICTORY IN NATIONS' PARLEY

(Continued From Page One)

gives Russia similar authority to put down threats to peace in any enemy state of World War Two. This no member of the "Big Five"—neither the U. S., Britain, France, Russia nor China—can block use of the Chapultepec pact.

An American spokesman said neither Great Britain nor Russia would offer objection to this concession to the strong Latin American bloc.

The Latin Americans won their victory after a 24-hour revolt. Some of them even threatened to bolt the United Nations conference if their beloved Chapultepec pact was subordinated to the new world security organization which they wished to invoke it to suppress local aggression.

Revolt Provoked

The "Big Five" provoked the revolt by giving Russia a privilege that they denied to the Latin American nations. It was an amendment to the Dumbarton Oaks charter, allowing Russia to use force in suppressing future aggression in enemy states without prior consultation with the new security council.

The Latin-Americans demanded that they be permitted to use the peace-making machinery of Chapultepec without consulting the world security organization if "local" aggression arises anywhere in the western hemisphere. They agreed that if the aggression ever threatens the peace of the world, the new world security organization should take command.

Two Concessions

The "Big Five" made two concessions to Russia. One was a revision of the Vandenberg amendment. The other was the so-called Molotov amendment.

One concession sponsored by Senator Arthur H. Vandenberg (R., Mich.) the other by Soviet Foreign Commissar V. M. Molotov.

The Vandenberg amendment, as Molotov explained it, would:

(a) Forbid the new world security organization from reviewing Russia's treaties with France, the Lublin Polish government or Czechoslovakia even if they carry seeds of future wars. Great Britain has a few such treaties. The United States has none.

(b) Forbid the new world security organization from revising any treaty of peace imposed hereafter by the victorious Allies on any of the defeated Axis powers. This would include the Russian peace treaty with Finland.

Molotov Amendment

The Molotov amendment, as he explained it, would permit Russia, France, Poland and/or Czechoslovakia, or even Britain, to use force to crush any "renewal of a policy of aggression" by Germany, Romania, Hungary, Bulgaria, Finland, Japan and even Italy without consulting the new world security organization. They need only report what they have done until they themselves agree that the new world order can maintain peace. And they will be their own judges of what constitutes "renewal of a policy of aggression" in any enemy state. This might even be the opening of a civilian thinking school.

of military operations against Japan," the President said in a statement.

Reluctant Approval

"I am reluctantly giving my approval of this legislation. I do not wish this approval to be interpreted as expressing my concurrence in section two of the bill which places added restrictions on the War and Navy Departments in their management of the fighting forces."

The act is continued for one year from May 15 or the date of termination of hostilities, if earlier.

The 18-year-old amendment was placed in the bill over the strenuous objection of the War Department, which contended that the military situation justified sending 18-year-olds into combat with 15 weeks training.

A provision was added to the effect that the amendment shall not prevent assignment of enlisted men to the Navy or Coast Guard to training on ships beyond continental limits of the United States.

Because of the collapse of Germany, however, the amendment may not greatly affect the Army training program.

At the time Congress debated the bill, Gen. George C. Marshall, Army chief of staff, said a policy of not sending youths overseas until they are 19 would be instituted as soon as the military situation permits.

The president made it crystal clear in his V-E day message to the country (however, that his first consideration will be bringing the full weight of the nation's land, sea and air forces to bear in forcing the unconditional surrender of the last Axis partner, Japan.

Twenty-One Under Arrest In Black Market Probe Now

PITTSBURGH, May 9.—(INS)—A total of 21 persons were under arrest today under indictments returned by a federal grand jury investigating Western Pennsylvania's black market.

The United States marshal's office reported the arrests cleaned up the warrants issued to date. All persons who lived and did business in Allegheny county were specifically charged with violation of the second war powers act, the enabling instrument for enforcement of the laws establishing OPA and other wartime agencies.

The marshal's office indicated the jury returned 23 indictments. Each of those arrested was named in one indictment with exception of Michael Norbut, operator of a meat market in Homestead, according to the marshal. He revealed that Norbut was named in three indictments.

All were freed under bond deputy marshals asserted. Norbut posted \$3,500 against his appearance and the others \$1,000 or \$1,500, according to the charge, they said.

Governor Urges Full Support Of War Upon Japan

HARRISBURG, May 9.—(INS)—In a V-E Day service held for more than 2,000 state capitol employees Tuesday Gov. Edward Martin urged continued full support of the war effort until the fall of Japan.

"It is the first duty of Americans to give their energy and ability to bring the war to a quick conclusion," he told employees assembled in the forum of the state education building. "This can be done by keeping the necessary flow of ammunition, food and medical supplies to the armies still fighting on the other side of the earth."

"Let us, with our prayers and our work, strive for a great ideal of a thousand years of peace, years in which Hitler promised his armies they would rule the world," he added. "We are paying a terrible price for freedom, but freedom costs more than anything else in the world and is worth the price."

NO MORE PRAGUES

As the last embers of World War II were being stamped out today in Prague, Nazi ambitions for world conquest were brought right back to where they first appeared more than possible of realization.

For it is an ironical fact that not until March 15, 1939, when Hitler's then mighty Wehrmacht rolled into the unresisting, helpless Czechoslovak capital that the rest of the world was finally convinced of the Nazi treachery in the Munich "peace in our time" pact.

But the boastful Nazi ideology died hard among the fanatical German garrison in Prague. Hopelessly surrounded by Czech Patriot forces, beleaguered by victorious Russian armies, abandoned by the Nazi leaders of a reprehensible cause already

lost, the Nazis in Prague fought on to the last, ignoring their foe's "cease fire" order.

The final battle for Prague therefore accentuates the postwar German problem, the huge task of obliterating once and for all the seemingly ever recurrent Prussian insistence on ruthless, often barbarous domination over all Europe.

A war-torn world, bereaved of millions of young men and helpless civilian victims of the holocaust just ended, cries out: "Let there be no more Munich pacts—no more Prague!"

Russian Troops Enter Prague

(Continued From Page One)

NEW YORK, May 9.—(INS)—The entry of Russian troops into Prague, capital of Czechoslovakia, was reported today by the Prague radio.

"German hordes" were said by the Prague transmitter in its broadcast reported by the FCC to be "fleeing into the interior of the town."

Czech Patriot forces were warned immediately to "strengthen immediately" their force on barricades.

The Czechs were told to "capture the German murderers and smash them should they resist."

All possible help to the "glorious Red army" should be given by the population, the Prague radio said.

Blood Donor Units End Service Here

Closing Of Pittsburgh Red Cross Blood Donor Center Affects Local Chapter

Announcement was made today at the Lawrence County Red Cross chapter house that the Blood Donor center of the Pittsburgh chapter of the American Red Cross will cease operations on May 19 and that this will affect the local chapter as it has been serviced by mobile units from the Pittsburgh chapter.

Mobile units from Pittsburgh have visited Lawrence county three times during 1944 and 1945 and one was scheduled to come to New Castle again in June—but this arrangement is cancelled by closing of the Pittsburgh Blood Donor Center. Pittsburgh center is one of 19 out of the 36 throughout the country that will be closed due to the fact that army and navy requirements of 90,000 pints of blood a week have been cut to 45,000 pints.

During 1944, 6,414 donors from Lawrence county gave blood to the armed forces through the Red Cross Blood Donor Service, and Mrs. John E. Elliott, Blood Donor Service chairman for Lawrence County chapter, today expressed thanks and appreciation for the work of all those who made possible this record of participation.

RENEGADE NAZI AIR FORCE UNITS BOMB PRAGUE

(Continued From Page One)

forces already inside Prague called for a cover of Soviet aircraft when it became evident that the city was faced with an imminent air attack.

Bombing Melnik lies 17 miles north of Prague and Kralupy is situated 11 miles northwest.

South of Prague, on the Austro-Slovak front, troops of the 65th Division of Gen. George S. Patton's Third Army linked forces with the Russians southeast of Linz.

The raid was announced by the Prague transmitter only a short time after a broadcast in which it was said that Soviet troops and Czech patriot forces had cleared Prague of German forces.

The populace had been asked to take charge of German subjects in Prague to prevent any possible harm to Czechoslovak citizens.

First Day Of Peace

The attack by German planes was reported as Europe attempted to settle down to its first full day of peace since September of 1939.

Announcement of the air raid followed by several hours reports by the Prague transmitter that Germans in the Prague area were continuing hostile acts.

Melnik was reported to have been attacked twice from the air an appeal was made by the Prague radio for the Russians to send immediate help to the town.

"German soldiers, still not disarmed, are marching through the town and shooting at civilians," the Prague transmitter said.

The Prague radio, controlled by Czech patriot forces, reported that German forces had reopened fire in the city at 1:50 a. m. (7:50 p. m. Tuesday EWT) despite cease fire orders issued by the German high command.

A later Prague broadcast reported the entry of Russian troops into the outskirts of the Czech capital but no mention was made of whether all fighting had come to a halt.

Peace technically arrived all over Europe at midnight and full capitulation of the Germans at Prague and in the surrounding area was to have taken place at 8 p. m.

The signed agreement concerning Prague stipulated that all Wehrmacht units and SS troops and German police were to begin leaving at that time.

The fire department of New York City normally employs 6,799 men.

GENERALS WHO DEFEATED NAZIS WILL FACE JAPS

(Continued From Page One)

Eisenhower might be moved to Washington to take Gen. George C. Marshall's post as chief of staff, permitting Marshall to take over command in the Japanese war.

Military experts do not expect such a shift. Marshall, they point out, has been handling the Far Eastern situation while Eisenhower has been devoting his study entirely to the European war.

Other high ranking officers who have distinguished themselves will probably move out of Europe much more quickly. They are likely to pass through Washington for briefing on the Japanese situation, visit their homes briefly and then move on to the Far East to study the situation at first hand, preparatory to deploying their force for action against the Japs.

These would include army group commanders, Gen. Jacob L. Devers, Omar N. Bradley and Mark W. Clark.

All these higher officers will probably be accompanied by their staffs in their moves, but the troops under them will be moved or discharged under the general army redeployment plan, details of which are to be made public tomorrow.

Air War Upon Japan Will Be Greatly Speeded

By JOHN R. HENRY

GUAM, May 9.—Fleet Adm. Chester W. Nimitz, emphasizing that "all parts of Japan can be reached by carrier and land planes," predicted today that the air war against the Japs will be intensified as the first step in the mounting battle of the Pacific.

Pointing out that the air forces in Europe probably will be the first units which can be spared and first moved, the five-starred U. S. admiral went on to say that the United States needs more fields to support large sky reinforcements expected from Europe.

Securing such fields, he said, is part of the present plans. Nimitz called Okinawa the most important battle of the Pacific only because it is nearest to Japan and the largest land mass which his forces assaulted. He said that American losses on this island, 325 miles from Japan, will not slow up the campaign in the Pacific theatre.

In reply to a question as to whether he regarded the Okinawa battle the most important, Nimitz replied that such a query was like asking a man climbing a ladder which rung was the most important. Asked if the plan to invade China had been abandoned, Nimitz answered:

"We have abandoned no plans which we think will pay dividends and will pursue whatever course offers the best prospects of bringing the Japs to unconditional surrender."

"Sure, I could use a new car as soon as the war is over."

"But let's face facts: I may not get a new car for 2 or 3 years after victory! It's tough, but..."

"After all, my Gulf man's on my side! And he says if I treat my car regularly with Gulf-Prize* and Gulflex**, it can last well beyond V-Day!"

"What's more, I believe him, because I know he gives the finest lubrication I can get anywhere! Yes, sir, I'm betting my car will last!"

Managing Executive In United Kingdom Suspended As War Correspondent

NEW YORK, May 9.—(INS)—The Associated Press was notified by its London office today that Robert Bunnelle, managing executive of the Associated Press in the United Kingdom, had been suspended as a war correspondent by the Supreme Headquarters of the Allied Expeditionary Force.

The suspension order came from Paris, where Edward Kennedy previously had been deprived of his filing privileges because of his unauthorized story of the German surrender at Reims.

Capt. Harry Clark, SHAEF public relations officer in London, telephoned Bunnelle to inform him of his suspension, advising that instructions to this effect had come from Paris.

SHAEF gave no reason for the suspension, Associated Press said. Bunnelle asked specific charges in writing and Capt. Clark promised he would forward this request to Paris.

While no reason was given for the suspension, it presumably was connected with Kennedy's dispatch, which was telephoned to London from Paris against censorship regulations and then cabled to New York by the Associated Press London bureau, which is under Bunnelle's direction.

American Dead Not To Be Moved Before V-J Day

JERSEY CITY, N. J., May 9.—(INS)—The Army quartermaster depot in Jersey City reminded relatives of military dead that no American war dead will be brought back from European cemeteries until after V-J day.

Transportation demands caused by the war against Japan is the reason.

T. J. quartermaster general said that after the close of all hostilities dead servicemen's remains will be brought to the United States for final burial on request of relatives.

In addition, all the dead in any theater of war will be returned to the U. S. for interment in national cemeteries if so desired by the kin of at least 70 per cent.

Greatest Double Cross In History Of Journalism

NEW YORK, May 9.—(INS)—Herbert M. Clark, Blue Network correspondent attached to supreme headquarters in Paris, on Tuesday reported that premature announcement of Germany's unconditional surrender was the "greatest double cross in the history of journalism."

In a broadcast over his network emanating at headquarters of Gen. Dwight D. Eisenhower, Clark said: "Yes, it's over."

"Europe is at peace and this is Herbert M. Clark reporting from supreme Allied headquarters, as though that had any more importance than that I have been waiting to give you this news for as long as you have been waiting for official confirmation to him in behind yesterday's flashes sent in direct violation of a pledged word in what correspondents have described as the greatest double-cross in the history of journalism."

"This delay is not the fault of General Eisenhower. That must be made clear. He wanted to announce the surrender when it took place at 2:45 o'clock on Monday morning."

"He was restrained by orders from Washington, London and Moscow."

"Government chiefs of state wanted to reveal the news and they themselves were scooped. That is the sad part—that this moment which should have been filled with the great joy of fulfillment of a task well completed."

Do you feel headachy and upset due to poorly digested food? To feel cheerful and happy again your food must be digested properly. Cargo Port Could See Victory Ahead Due To Shipments

PHILADELPHIA, May 9.—(INS)—The step by step nature of the Nazi collapse enabled the U. S. army's Philadelphia cargo port of embarkation to halt European-bound combat supply shipments on a gradual and orderly basis. Lt. Col. Gerald O. Hodge, port commander, today reported.

As combat needs on the western and Mediterranean fronts declined during the past week, the flow of army material to those fronts was so reduced that only a trickle of the once-tremendous stream remained to be shut off, Col. Hodge said.

Only substance supplies—food, clothing, post exchange supplies and medicines—are now being shipped from Philadelphia to the armies in Europe, he added.

The port is "busy planning for the debarkation of material soon expected to begin arriving from Europe, and the shipment of ever-increasing war cargoes to the Far East for use against Japan," Col. Hodge asserted.

Already Moving U. S. Troops To Pacific Areas

WASHINGTON, May 9.—(INS)—Veteran troops of the Mediterranean theater of war are already on their way to the Pacific for the battle against Japan. It was officially disclosed today.

The disclosure came from Gen. Joseph T. McNarney, deputy Allied commander in the Mediterranean theater. It was made in a V-E Day speech in Italy which was monitored by the war department listening post in Washington.

In his V-E Day speech, McNarney told his men that not many of them will get out of the army as a result of the European victory and that many will see the United States before they face the Japs.

Breaking Down Begins
Breaking down the troops under him into various categories, McNarney declared that they will be separated into three different groups, according to the war department listening post. The war department quoted the general as saying:

"The first will consist of men retained overseas for occupation of the tremendous job of re-establishing law and order and of moving out supplies and breaking up installations."

"In the second will be combat and service troops to be transferred to active theaters in the Far East. Some of this group will go directly from Italy to the Pacific. Some have already gone. Others will go via the United States."

More Gasoline For Home-Front Now Possibility

WASHINGTON, May 9.—(INS)—Moving quickly in the wake of V-E Day, War Mobilizer Fred M. Vinson today lifted the midnight curfew and the ban on horse racing in disclosing a broad 10-point home-front program for the war against Japan.

Among the possibilities is that there will be from eight to sixteen percent more gasoline available for civilian use. This will go to "A" and commercial card users, with a possibility of some more gas for "B" drivers.

Re-Married Wife Returns To 'Dead' Serviceman Husband

'Never Stopped Loving Him', Young
Wife Says Of Man Who Was
Listed Dead In Burma

LONG BEACH, Cal., May 9.—(INS)—Helen Goad MacDowell, wife of two servicemen, was en route to Portsmouth, Ohio, aboard the Union Pacific Challenger today—her mind made up after three days of indecision.

The attractive 23-year-old girl who was faced with an Elmer Arden dilemma, said she will return to her first husband, Lieutenant Harold Goad, rescued from Japanese captivity last week after he had been presumed dead for two years. She will wait for him in Portsmouth, their former home town.

"I made up my mind—it's Harold," she said.

"If I had known he was alive, this never would have happened. I never stopped loving him, but he was reported dead and I just married again. That's what he always told me he wanted me to do."

"My marriage to Mac was wonderful but somehow I know now that Harold is the one I love. I hope Harold feels the same way about me."

Her second husband, Ensign Robert A. MacDowell, whom she married after she became convinced that Goad was dead, is on duty in the Pacific area.

Lieut. Goad, 27-year-old Army Air Forces pilot, was downed over Japanese-held territory in the Burma sector on October 14, 1943, when his plane exploded in mid-air.

In the making of flesh and bone, Nature uses principally proteins and minerals. Obviously milk must be a good source of these proteins and minerals. Or Nature would not use milk to start you off in life.

Taking the initiative again, the bakers of Wonder Bread have now DOUBLED the quantity of milk proteins and minerals in the formula to give you this amazing new Wonder Bread.

Bessemer Students Win Stenography Award In Contest

Team Of Bessemer Commercial Pupils Among First Eight In National Contest

Stenography team of Bessemer high school entered in the Gregg International Stenography contest by their teacher, Miss Isabel Crawford, came through with flying colors, according to a letter received at the high school stating that the Bessemer school team has been awarded an honorable mention school banner.

Annually in this contest a silver cup is awarded for first prize and banners for the next 7 prizes. This means that Bessemer ranks among first 8 teams for achievement in a contest entered annually by approximately 30,000 stenography students. The Bessemer team was composed of members of the junior and senior stenography classes, all 40 members of which submitted work.

Individual prizes in the form of gold pins were won by Maxvella Park, Virginia, Gemma and Stella Millich, Miss Crawford, who entered the teacher's division of the contest, also won a gold medal individual award.

Results of the contest serve as an indication of the excellent work being done in the Bessemer commercial department, a record of which the school and community may be proud.

WINDOW BROKEN BY GUST OF WIND

B-Truck Company from Central Station was called to 28 East Washington street last evening, to remove some shattered glass from a window on the second floor, which had been broken by a heavy gust of wind. Fire Chief James E. Thomas reports.

Part of the glass shattered down onto the street, but as far as could be learned, no one was injured. A ladder was placed to the second floor and the glass remaining was taken out of the frame, so that it would not fall out later.

Even now he's tightening his helmet strap

• He knows what's ahead . . . a tough, grim, bitter business to be settled through the mists of the Pacific.

He knows more than that.

He knows that we're all behind him . . . that we, too, will tighten our helmet straps.

Blow the whistles? Sure. Strike up the band. Ring the church bells. Thank God for the death of the spider-wastika.

Then finish the job. Do it up brown. For the next major victory is the end of the war.

HERE AT THE TELEPHONE COMPANY, we've had our hands full since Germany fell . . . too full to blow off the steam our emotions generate. Calls came faster and faster. Long distance traffic was heavier and heavier.

Until Japan is beaten, this won't change. Telephone facilities will still be strained. The plants that make equipment for us still make other equipment for war . . . still find the Army and the Navy needing nearly everything that they produce.

This means that the end of Germany is not—can't be—the end of the waiting lists for home and business telephone service . . . not by a Pacific-Oceanful. But everything we get is being applied at once to lessen your waiting time. We don't like to keep anyone waiting for telephone service.

V-E Day Program At Deshon Annex

Special Program Of Varied Nature
 Marks Observance Of End
 Of War In Europe

V-E Day was marked by a program of activities at Deshon Annex Tuesday, May 8, that started near noon and finished Tuesday night with a dance.

At two fifteen the camp personnel assembled in the gymnasium and heard the President's proclamation read by Captain Jack D. Sedwick, camp commander. Opening the meeting, Rev. George R. D. Braun, pastor of Epworth Methodist church delivered the invocation and Chaplain Raymond S. Hall, formerly of the 101st Airborne division, the benediction. The senior high school band directed by Joe D. Replogle, presented a half hour of martial airs.

Excellent Show

At three o'clock, Unit 13 of Camp Shows, Inc., "Accent on Fun" presented a variety bill that was easily the best of the traveling units seen at the Annex yet. Clarence Stroud, one of the famous "Stroud Twins" was master of ceremonies. On the bill were the Drake Sisters, a dancing team; Ellis and Elaine, harp-mojo wizards; Lou Hoffman, the "Mad Hatter"; and company jugglers; Jane Kaye, a songstress; Helen Lewis an acrobatic dancer; Frank Fayland, a motion picture star; and Lowe, Hite and Stanley impersonating the Andrews sisters. Henry Hite is 7 feet nine inches. Stanley Ross is 45 inches high and Lowe is "Mister in Between."

It was a fortunate coincidence that the unit was scheduled into the Annex on V-E Day. It was top drawer entertainment that checked with the G.I.s.

Evening Dance

A ball game between The Annex and Standard Steel Spring was played at six o'clock and at eight thirty a group of entertainers from Youngstown, O. presented a show in the recreation hall.

A dance followed with hostesses from the USO present. A lunch was served in the mess hall. The dance continued a full day for the veterans at the Annex.

ROBBING DUMP

Juke Elias, caretaker of Cascade dump reported today that someone has been stealing articles which can be salvaged there.

In the 10-year period, 1935-44, the United States produced almost 85 per cent as much crude oil as in the preceding 75 years.

Many Stars May Be Returned To Major Leagues

Report Army Releasing 2,000,000 Men Following V-E Day, May Help

CLEVELAND NUDGES WHITE SOX 7 TO 1

By LES CONKIN
(International News Service Sports Writer)
NEW YORK, May 9.—(INS)—Inter-divisional competition got under way in the big leagues in full swing today with a flurry of speculation sweeping both major circuits as to the probable implications of V-E Day on the baseball manpower situation.

As a result of Washington's announcement that 2,000,000 men soon would be discharged from the army, it was expected that several hitherto weak clubs would be bolstered by the return of former stars from the service. On top of this, there is the factor that many players in the higher age brackets now will escape induction.

Many Will Return
More than 500 former major leaguers now are in the armed forces. Pity the poor baseball expert when these former stars return to harness and start to make winning teams out of losers.

Sluggers who return to the big show may have difficulty in adjusting their timing, but pitchers seem to do all right after their layoff. There is Al Benton, who has won four straight for Detroit, and Dave Faries of the Red Sox, who has turned in shutout victories in each of his two starts.

Meanwhile, the inter-divisional engagements will put such clubs as the New York Giants, Brooklyn Dodgers and New York Yankees to the acid test. These outfits have been fattening up on weak eastern opposition while the stronger western aggregations have been knocking each other off.

In the American League, today's feature pits the fast-traveling Yankees against the powerful Tigers at Detroit. Both are less than a game behind the Chicago White Sox, who dropped a 7 to 1 decision to Cleveland yesterday but managed to hold on to first place by a gnats whisker.

Indians Trip Sox
After five straight defeats at the hands of the Sox, the Indians finally stopped the pale horse behind the seven-hit pitching of Red Emeore, Cleveland rookie who chalked up his first win of the season. The Indians knocked Orval Grove out of the box in the seventh inning.

In the only other game of the day, the champion St. Louis Browns got a Johnny Niggeling party and voted to a 7 to 1 win over the Washington Senators in the first inter-divisional contest of the year. It was a night contest. Brownie hurler Nelson Potter held the Senators to three hits.

JEAN BOROTRA, French tennis star, was among prisoners of war liberated at a secret Alpine prison camp at Itter Castle in Austria. Existence of the camp was disclosed when the tennis star escaped in disguise and got through German lines to Seventh Army tank forces which fought their way to the castle. Borotra was U. S. indoor singles champ four times, winning crowns in 1925-27-29-31. He was French outdoor champ from 1924-31. He held other titles. (International)

FISHING COST REMAINS AT \$150

Despite over use of funds raised by a proposed 50-cent boost in fishing license fees yesterday at Harrisburg kept the license fee at \$150. Both the house and senate bear a report of a joint committee limiting expenditures from an estimated \$200,000 annually from the fee increase to buying or leasing of additional water, and their maintenance. The house voted down the measure 75-61 and the senate 23-9.

Cincinnati New Headquarters For 'Czar' Chandler

New Baseball Commissioner May Keep Job In Senate For Time Being

CINCINNATI, O., May 9.—(INS)—Senator A. B. "Happy" Chandler, "D-Kentucky, baseball's new high commissioner, revealed today that Cincinnati had "virtually been chosen as high commissioner's headquarters" and that office leasing arrangements were nearing completion.

Regarding his plans to continue in the senate, Chandler told International News Service, "I have received no objections from either constituents or baseball men against my holding both jobs."

He intimated however that he might follow the late Judge Landis' method of deducting his federal salary from his baseball salary so as "not to take two salaries."

Chandler arrived in Cincinnati late yesterday to attend a baseball conference in his new commissioner's role.

Chandler Pledges To Help Boys In Legion Baseball

New Commissioner Pledged To Co-Operate With Development Of Young Stars

LEXINGTON, Ky., May 9.—(INS)—Sen. A. B. "Happy" Chandler, recently appointed major league baseball commissioner, was pledged today to cooperate with the American Legion junior baseball program and to foster development of young sandlot players.

At a testimonial dinner given in his honor Monday night by bluegrass friends, Chandler expressed a strong desire to expand sandlot baseball and the Legion junior program for the discovery and development of new talent.

Will Quit Senate

Chandler also said he hoped no one would take issue with his request for baseball players to avoid gambling of any sort. Although his earlier statement had pertained to race track betting, he did not mention racing in Monday night's speech.

The Kentucky legislator indicated that it may be some time before he resigns his U. S. senate post. He will not accept any of his baseball commissioner's salary until his job in the senate is completed, Chandler added.

V-E Day, Weather Hampers Golfers

The New Castle Elks had planned on about 125 members from the local lodge and Ellwood City players golf at Sylvan Heights Tuesday for V-E day and the weather rather hampered the plans and none of the Ellwood golfers put in an appearance. It was reported today by Chairman Eddie Long.

About 67 of the New Castle Elks, braved the windy sun, and played nine holes of golf, with Ben Ogden and James Boyd the blind-bogey winners. After the golf was over the men went to the clubhouse and enjoyed a lunch and games occupied the remainder of the evening.

The Elks announced the opening of their eight-team league for next Tuesday evening.

SAFETY AID

The army air forces have standardized a new airspeed indicator for fighter planes which is equipped with two hands to indicate the safe airspeed for a plane as well as the actual flying rate. The new indicator, or "movable red line," designed and developed by an technical service command technicians will replace the stationary red line which marks the speed beyond which a plane cannot safely fly.

GI SPEED KING

ATLANTIC CITY, N. J.—(INS)—T-Sgt. Robert T. Dalton, Duxbury, Mass., claims to be the speed king of the 13th air force. The B-24 radio operator-gunner believes he set a world's record for the 50-yard dash when his plane crashed on the runway. "I was away out of range when the bombs went off," he said at the AAF redistribution station No. 1 here. "Nevertheless, I could still feel the terrific concussion from the explosion."

V-E DAY—Let us pause a moment to pay tribute to the memories of the gallant band of athletes who have sacrificed their lives on the battlefield so that you and I and the rest may continue to live in a democratic world, enjoy our right to freedom and happiness and recreation and athletics as we have been accustomed to do. Those that are gone from all athletic fields and those that took part in the big fight over there climaxed their careers with five-star performances. They won no letters, few headlines and many suffered severe wounds but like all great American athletes, they carried the ball across the goal line to ultimate victory. The athletes who put their lives were all-Americans in reality. They should be remembered as such by all Americans.

Baseball, basketball, football, horse racing, bowling, swimming, track, tennis, hockey, boxing, golf, wrestling, polo, soccer and many other minor sports contributed their share of leading men. They contributed their share to the casualty lists. Major L. E. Jones, of the Central Press, came in Don Scott, Ohio State football star. Al Black, Georgetown track ace, Ardy Keller, St. Louis Browns catcher, Forrest Brewer, Washington pitcher, Torge Toke, all champion, Tony Butkovich, Purdue fullback, Charley Paddock, track star, Mike Kunkin, Iowa grid hero, Bob Glass, Tulane back, Bill Southworth, Joe ex-ball star, Joe Hunt, tennis king, Tommy Hirsch, polo standout. These are just a few names.

And let us not forget all the other athletes and what they did, are doing, and will do. Let us not forget Babe, Rex, the mighty boxing champion and his days on Guadalcanal. Let us not forget men like Hank Greenberg, Ted Lyons, Bob Feller, Bill Dickey, Phil Marmaduke, Buddy Lewis, Terry Moore, Hugh Mulcahy, Johnny Valdes, Mer and Kirov Hube. Many others. Allen like Joe Louis, Billy Conn, Freddie Cochrane, Wootie, Paul Borsch, Gus Luyken, Tony Zax, Ben Jack, Willie Pep. And still more Don Budge, Ted Schroeder, Tommy Haines, Johnny Cochran, Adolph Riese, Bernie Jefferson, Greg Rice, Lou Zamperini.

Let us not forget What Maurice Britt, former Arkansas football star who later played for the Detroit Lions did for a Brit, first American fighting man to be awarded the three top military honors, the Congressional Medal of Honor, the Distinguished Service Cross and the Silver Star, lost an arm in the fighting in Italy. Let us not forget what Bert Sheppard, Washington's one-legged player, gave up for us.

We've omitted the names of thousands of other athletes, whose deeds on the battlefields and in war service may never be told. Already we are beginning to see servicemen returning to the fields of athletic competition. More and more will be coming back now. Others won't get the chance, however, until the war against Japan has run its victorious course. Let us, then, not forget what all of them did for us.

Lions Map Plans To Engage In 7th War Bond Drive

Teams Are Selected And Arrangements Made To Aid In Coming Campaign Starting Monday

New Castle Lions Club issued to an appeal by Jack J. Maher, Chairman for New Castle in the War Bond Sales organization, to help put the 7th War Bond Drive, the greatest yet held over the top when the campaign gets under way next Monday.

Mr. Maher stated that the New Castle quota for individual bond purchases is \$2,700,000 of which \$1,340,000 is in E Bonds. He explained the various types of bonds and securities which the government is offering, and issued an invitation to the Lions who will engage in the campaign to come to the dinner and program arranged for Thursday evening, in The Cathedral.

Name Leaders

William R. Voorhis, chairman of the Lions campaign, announced the appointment of Sam Rashid and Charles Ward, as team captains and asked each to name a co-chairman to assist him in the drive.

Jack M. Dunlap, County Probation Officer, who was to have addressed the club on juvenile delinquency, graciously gave up his time at yesterday's meeting so that plans for the bond drive could be arranged. He will speak to the club at a later date.

Numa F. Vital past president of the club reflected the sentiment of the club in calling attention to V-E Day and what it meant.

He urged that the sacrifices made by our boys on the war be not forgotten, and that their suffering and hardships be not in vain in bringing about peace in the world.

S-Sgt. Broad Guest

S-Sgt. William Broad, who returned home last week, after being confined in a German prison hospital, was a special guest of the club. He is a son of Lion Henry Broad. Broad had a narrow escape when the bomber on which he was serving exploded over German-held territory. He sustained serious injuries to his left arm, but managed to float to safety, and was confined to a Nazi prison hospital at Meiningen, for several months, before being released by the Yank forces in February.

AS YANKS EXPLORE FALLEN MUNICH

TROOPS OF THE U. S. SEVENTH ARMY find many a memento of the defeated Nazi party in its birthplace—Munich, as they explore the ruins in the city that fell with little opposition from the German defenders. A mural hangs over the entrance of the big bombed-out banquet hall, top photo, in the Hofbrau house, where Hitler escaped being blasted to bits in the bomb plot against him. The lower photo shows Sgt. Arthur E. Peters of Edmund, Okla., making himself quite at home on the bed of Adolf Hitler in the Brown house. His bedtime literature is the Fuehrer's "Mein Kampf."
